VMware Workstation 15 Pro

VMware Workstation Pro is the industry's most powerful virtualization software for running multiple operating systems on a single host.

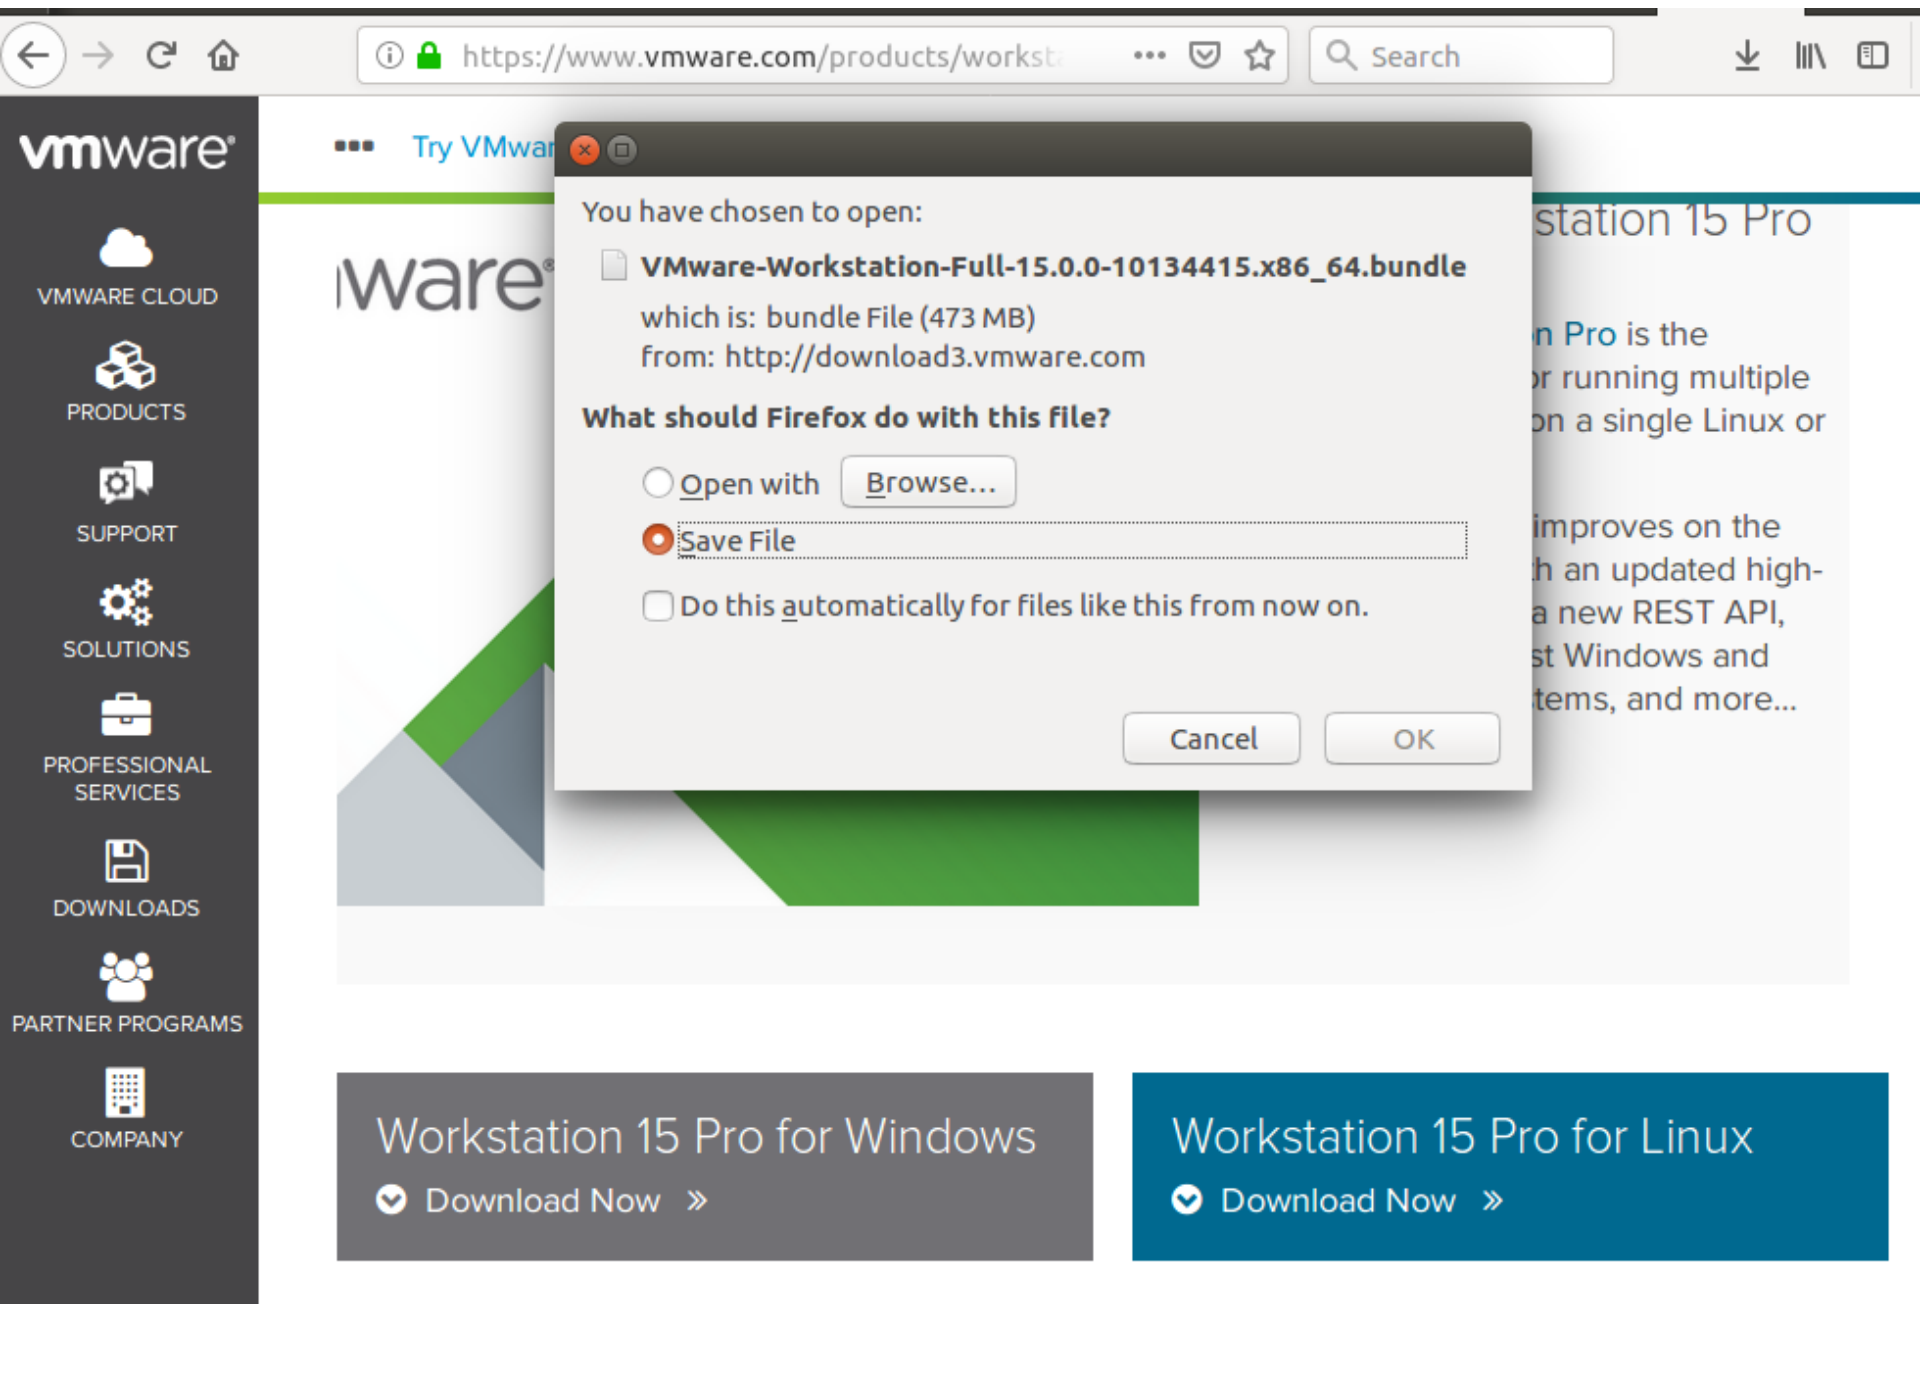

Workstation 15 Pro improves on the legacy Workstation 12 Pro with a new, updated high-DPI user interface, a new Windows 10 virtual machine, and the latest Windows and Linux operating systems.

VMware's Customer Experience Improvement Program ("CEIP") provides VMware with information that enables VMware to improve its products and services, to fix problems, and to advise you on how best to deploy and use our products. As part of the CEIP, VMware collects technical information about your organization's use of VMware products and services on a regular basis in association with your organization's VMware license key(s). This information does not personally identify any individual.

Additional information regarding the data collected through CEIP and the purposes for which it is used by VMware is set forth in the Trust & Assurance Center at <http://www.vmware.com/trustvmware/ceip.html>.

Join the VMware Customer Experience Improvement Program ("CEIP")?

If you prefer not to participate in VMware's CEIP for this product, you should select "No" below. You may join or leave VMware's CEIP for this product at any time.
